### HOW TO USE PRONOUNCE TOTAL FACE SYSTEM:

1. **Face Wash**

Use 3-4 pumps of your Face Wash on a wet washcloth. You'll notice that you will not get as much lather as with a conventional soap, but that's a-okay! This gentle cleanser will do the trick and you'll come to love the fact that your face doesn't dry out and feel overly tight from oversudsing, stripping natural oils we need, and toxic ingredients.

2. **Face Toner**

You'll love how you feel your pores open up and soak in your beautiful Pronounce Face Toner! Just 2-3 spritzes will completely cover your face, and your face will thank you.

3. **Face Moisturizer**

Oily skin? Dry skin? It doesn't matter, our skin needs clean nourishment, especially the face! It really takes a beating, so giving it a luxurious lotion to lap up will certainly treat it right. Apply a small amount while your Face Toner mist is still on your face so you can 'lock in' the moisture your face needs. Pronounce Face Moisturizer contains no emulsifiers and no preservatives (which we think is a very good thing!), so you need to take a few additional steps to ensure your Face Moisturizer stays good (3 months, often longer). Store your new Face Moisturizer in a cool place (heat is an enemy!), keep the lid closed tightly when not in use, apply with clean fingers, and do not get water in your Face Moisturizer.

4. **Face Serum**

Apply this only at night to areas where you might have a few extra smile and laugh lines (around the mouth, forehead, and eyes). This should be used sparingly...as little goes a long way.

ENJOY YOUR NEW TOTAL FACE SYSTEM AND  
THE GLOWING SKIN YOU'LL RECEIVE BY USING IT  
DAILY.
